

Disaster Relief

When disaster strikes, efficiency and quality are more important than ever.

In the wake of a natural emergency, Ace can be on site quickly with the tents needed to care for the sick and keep aid workers safe from the elements.

We have the capability of converting outdoor locations to climate controlled, weather resistant spaces using tent structures, power distribution, portable heating and A/C units.

Services

- Tent Structures
- Power Distribution
- Heating and A/C
- Lighting
- Flooring/Carpeting
- Generators
- Chairs & Tables
- Crowd Control
